9/10/03	A03-07-032	Southern California Edison Company, for Approval of a Power Purchase Agreement under PUHCA Section 32(k) between the Utility and a wholly-Owned Subsidiary and for Authority to Recover the Costs of such Power Purchase Agreement in Rates.
---------	------------	--

**Summary:** On September 5, 2003, Bruce Foster, Vice President, Regulatory Operations, Southern California Edison Company (SCE), participated in an all-party meeting with Cmmr. Wood in San Francisco. Also present was Steven A. Weissman, advisor to Cmmr. Wood, Gary Schoonyan, Director, SCE San Francisco office, and other attendees listed on the attachment to the notice. Foster indicated that it was imperative that the Commission make a decision on SCE's application by December 2003, and, in moving in that direction, issue the Scoping Memo in the very near future. Foster indicated that the Scoping Memo needs to establish a memorandum account and provide findings addressing the issues on the need for a Request for Proposal and the validity of the Power Purchase Agreement structure.

9/12/03            I00-11-001            Order Instituting Investigation into implementation of Assembly Bill 970 regarding the identification of electric transmission and distribution constraints, actions to resolve those constraints, and related matters affecting the reliability of electric supply.

**Summary:** On September 9, 2003, Robin Smutny-Jones of the California Independent System Operator (ISO) met with Pres. Peevey in San Francisco. Also present were Barbara Hale, Director, Julie Fitch, advisor to Pres. Peevey, Bill Ahern, Executive Director, Jim Hendry, and Kerry Hattevik, for the Commission, and Terry Winter, Phil Pettingil, and Anjali Sheffrin, for the ISO. Written material (attached to the notice) was used. ISO personnel expressed concerns about the direction of resource adequacy in California. ISO representatives stressed that it is extremely risky to approve plans that allow the investor-owned utilities to rely heavily on spot market purchases going forward. ISO recommended that load serving entities be required to demonstrate one month ahead of real time that they have locked up sufficient 'firm capacity' to meet their needs. ISO personnel also discussed the Joint Proposal for resource adequacy and stated that the ISO cannot support the proposal because it does not contain a month ahead capacity obligation. ISO also expressed concern about the time frame for getting resource adequacy requirements in place. Parties also discussed the Miguel-Mission transmission line. Winter expressed urgency in getting the line sited.
